26 September 25X1

SUBJECT

AREA: Defensive Missiles

DISTRIBUTION:

All PIs

IEG PI NOTICE

No. 15-74

TITLE/SIGNIFICANCE:

The first identification of a light truck STYX transporter in China. The transporter is similar in design to the transporters associated with the SS-N-2 (STYX) system in other countries.

COMMENT:

The STYX missile in China is deployed on land as well as shipboard. The land-based STYX transporter is similar to the Samlet transporter. This light truck transporter will probably be seen at China naval facilities with missile patrol craft.
